Come Visit Our New Downtown Office Interiors Showroom.

Because it's about so much more than just gorgeous chairs and a desk. It's about creating a work space capable of restoring our environment, rejuvenating your employees – and renewing your soul.

Offering everything from innovative raised floors, to moveable walls, recycled materials, and a host of "Smart Interior" products, PPG stands ready to deliver on this promise. For more than 20 years we've been helping L.A. companies create interiors that are as brainy as they are beautiful.
